

TARIFF PICTURES.

A favorite Democratic charge is that the McKinley tariff "strangled" trade. Here are some facts about the matter. Under the old tariff of 1883 the average amount of imports admitted free of duty was \$3.41 per cent. Under the McKinley tariff the free imports for the year ending June 30th, 1893, were \$5.17 per cent. of the total imports.

A BILLION DOLLAR ADMINISTRATION.
New York Press.—Not long ago the Democratic press was vociferous in its denunciation of the Republican "billion-dollar Congress." For more than a year the clamor about alleged "extravagance" and "recklessness" was kept up by Democratic organs from one end of the country to the other because the Fifty-first Congress in two years had appropriated about a billion dollars to carry out the manifold activities of the Government. This billion was honestly collected and honestly expended. A large proportion of it was contributed by foreigners as the price of admission to American markets. It went to discharge the Nation's obligations to its creditors, and to pay for forts and for ships and guns of American manufacture. It was paid out in pensions to Union veterans and passed through their hands to the tills of merchants of every kind in every State in the Union. It was expended in the construction of great harbors, improved waterways and constructed public buildings in American cities; it erected and maintained lighthouses on storm-beaten coasts; it went to pay the officers and men our country's little army and navy; to furnish the salaries of our diplomatic and consular representatives abroad and of the great host of Government workers at home. It was disbursed in every section through all the channels of trade, giving work and wages to labor, creating property and developing industry in all directions. The Democratic charges of "extravagance" were utterly disproved, and it was acknowledged that the Fifty-first House had simply made adequate provision for the growing necessities of the Government, when the succeeding Democratic House not only reached the billion mark in its appropriations, but passed it by some \$400,000,000.

For five months a Democratic Administration has been in the saddle. The President, behold it, has stood a party vehemently demanding the abolition of all protection and the resuscitation of state bank currency. The industries of the Nation have taken alarm at the spectacle of their enemies in power. The Free Trade President has used the authority of his office not to protect but to assail and ruin the business interests of the country. The result has been the obliteration of more than a billion dollars in the value of property held by American citizens. The shrinkage in values has embraced inactive as well as active securities; state, city and county bonds, the capital stock of limited corporations, manufacturing companies and business firms. It has destroyed credit and plunged multitudes into bankruptcy. Banks have been carried down by the score. Thoroughly established business reputations have been hopelessly wrecked. The abundant prosperity of the country has been changed into stringency and panic.

The Fifty-first Congress appropriated a billion dollars in two years and made provision for distributing it among the people. The Cleveland Administration has taken a billion dollars from the pockets of the people in four months. It has diminished the wealth of the Nation by an amount nearly equal to the entire sum of money in circulation in the United States to-day. It has cost the people of the United States three times as much as the colossal expenditure of the Panama Canal, which shook France from center to circumference, cost the French people. It has taken enough money from the people to build the Nicaragua Canal ten times over. There are appalling figures. But they are not all. They demand the earnest consideration of every American citizen on this anniversary of the Nation's birth. Bluster and prevarication as they may, the mouthpieces of Democracy cannot deny the tremendous fact. Pullman sleepers are attached at Charleston and run through to Chicago on this train. THE FACTORY WHISTLES SOUND.
What rejoicing there would be if the days we could recall.
What cheering would be booming, with work enough for all.
When the factory chimneys told a tale of prosperous times.
And the smoke that rose from the tall chimneys told a tale of prosperity.
But that is all a memory, a thought of days gone by.
Not that it is all a memory, we heeded it, and it is all a memory.
And it is all a memory, and it is all a memory.
And it is all a memory, and it is all a memory.

The business way to advertise is to take space in the Public Ledger.

Year, take pains with your advertisements in making them attractive, and change them at least as often as once a month.

You may think there are reasons when you don't need to advertise.

We have never seen that time.

Use the dull reasons for looking over your stock and running off that which is becoming out of style or unfashionable, and giving bargains.

If you have space by the year, it costs you no more, and you can make it profitable by converting unsold goods into money, and reinvesting the money in those things which are salable.

A liberal reward will be paid for that banner at this office, and in questions asked.

The voice of the Bourbon shriker against bury TOM REEB'S policy is changed into a chant in their praise.

The Great Northern Railway Company has gone into the salary-reduction business.

From a circular issued it is learned that the monthly payroll is cut from \$400,000 to \$350,000. Hip, hip, whoopee! Three-and-a-half more years of GROVER'S good times!

HERE'S more of "them" good times. The machinists, pattern-makers, molders and laborers in all the machine shops in the Pittsburgh district have been notified of a 10 per cent. reduction in wages.

The reduction will affect 8,000 men in forty shops. Hurrah for the Dimmy-kraie roster!

We have everything now that we had last year,—says Governor McKINLEY. Only—except confidence and prosperity.

Ohio has the same rich country, the same wealth of resources, the same wealth, the same people. What we have this year which we did not have last year is the new management which the people last November put in charge of the Government.

ONE of our esteemed Democratic contemporaries lately published the fact that wheat in Chicago had reached the lowest point in years—lower in fact than ever before. And yet we were prone to believe election district have been sold for a dollar a bushel and clothing sold at half the present price. What do the farmers of Mason county think of the condition that now confronts us?

If the Sherman Law is responsible for the financial desolation, why the devil don't the Democrats repeal it? They are in power all along the line.

Five Thousand Unemployed Hebrews Cause Trouble.

They Batter Down the Doors and Windows of a Hall.

Replied by the Police, Who Use Their Clubs and Battering-Rams.

New York, Aug. 18.—Five thousand unemployed Hebrews gathered Thursday morning around the International Labor exchange, 357 East Tenth street. The meeting room holds only 300. Some one shouted "Get another hall," and the crowd surged out into the street.

The whole contingent swarmed down First avenue and through several side streets until they reached Wallhall hall at Nos. 48 and 50 Orchard street. The doors were closed. They were quickly forced open, and the windows smashed with paving stones.

The janitor summoned the reserves from the East Fifth street station. The police cleared the hall and arrested three men.

The three men arrested were arranged in the Essex Market court in the afternoon and discharged. When the call for reserves came to the 25 Bridge Street station Capt. Devery hurried around with five men. He found Orchard street packed for blocks with excited men. The captain placed himself in front of his men and, baton in hand, made a rush. Slowly and with difficulty the police broke through the way through the mob.

They then forced themselves into the hall, which was literally packed. He ordered the crowd to disperse. The crowd refused to leave. Joseph Hardesty, who was present urged them to go out quietly, but no one heeded him. The police were forced to leave them in possession of the hall while they took three prisoners to the station house.

In the afternoon Capt. Devery returned with his dozen men and entered the hall and ordered the crowd to leave. A scene of wild confusion followed. The men became enraged and began to wreck the place. Chairs were hurled at the windows. Gas fixtures were pulled down. A glass partition in the rear room was smashed. At least a dozen men mounted a grand piano in the corner and jumped on the lid until it was ruined. The crowd surged from one end to the other seeking an exit.

The police could not force their way in at first. Forming themselves into a wedge, they rushed at the door. The doors were torn from their hinges. The crowd swept through the barroom out into the street. The men lost their heads completely and became panic-stricken. Those in the rear were kicked out by the police. They left the hall a wreck. The proprietor estimates the damage at \$5,000.

Outside the fight was renewed. O. C. Fitzgerald was knocked down. He was taken to the police. The police arrested a number of the rioters and the rest fled in every direction. The men who put in the trouble having spread all over the east side, brought vast crowds to the scene. They were kept out of Orchard street by a cordon of police.

The reserves of the fourth, seventh, tenth, fourteenth and eighteenth precincts were called out. When they arrived on the scene the crowds were over-awed by numbers. All the prisoners arrested in the afternoon were taken to the Essex market court and remained all Friday.

A Failure at Delancey.
DELANEY, N. Y., Aug. 18.—The First National bank of this city suspended Thursday morning. It was one of the oldest institutions in the city and had a capital of \$300,000. The last statement showed deposits of all kinds amounting to \$325,000. The cause of the failure is the continuing withdrawal of deposits which were understood to be mostly of country banks.

Dr. Jenkins' Report.
NEW YORK, Aug. 18.—Oscar Jenkins, Thursday night, stated that the health of the passengers detained at quarantine continues good. There are no new cases among the immigrants. If there are no new developments found during Friday morning's examinations, Dr. Jenkins will feel satisfied that all infection has been destroyed.

Lambertville, N. J., Aug. 18.—The dry weather is becoming a very serious affair in this vicinity. No rain, except a few light showers, has fallen here since May last. ANOTHER PLAN.

Criticism is Said to Favor Issuing Certificates Against Bullion.

WASHINGTON, Aug. 18.—The treasury officials are said to be considering a plan to supply the threatened deficiency in the treasury, get rid of the accumulation of 8,000 tons of useless silver bullion, and supply the country with \$150,000,000 of new currency. This plan, rumors say, will shortly be brought before congress in a formal manner.

The cash balance in the treasury dropped another half million Thursday, and still stands at \$10,000,000. The constant fall in the cash balance has attracted the attention of the secretary of the treasury, and several of the matter Thursday afternoon with Assistant Secretary Curtis, Treasurer Morgan and several other officials.

The needs of more currency, however, calls for an alternative plan, and one is said to have found great favor with Mr. Carlisle. This rumored plan is a modification of one of the schemes which the more moderate silver men have already suggested. It involves the immediate issue of a small silver bullion purchased under the Sherman act to the silver coinage fund and the issue of certificates against the pile of silver bullion in the treasury. The cost of this silver up to July 31 was \$138,250,848, but the coinage value at the present ratio of 10 to 1 is considerably greater.

Those spreading this rumor say that it would be impossible for the mints to coin the silver in less than five years in connection with other necessary coinage, but prompt action by congress would authorize the issue of silver certificates of the same denominations and character as the silver certificates of the United States, and their immediate circulation. It would not even be necessary to procure the bullion for the new certificates would be a continuation of the old issue and could be printed from the same forms.

IN CONGRESS.
A Bill to Provide for a More Extended Issue of United States Notes, and to Amend the Act in Relation to the Senate-Silver Debate in the House.

WASHINGTON, Aug. 18.—After the ordinary routine morning business, the report on the Joint resolution memorial was taken up in the senate Thursday, and an argument was made by Mr. Spooner, of Ill., against the right of Mr. Nangle to his seat under the governor's appointment.

The senate finance committee will probably report favorably on a conditional repeal bill Friday morning and ask that body to fix a day for a vote, perhaps within a day or two after the vote in the house. The committee agreed upon all but the phraseology of the bill, which will contain a declaration favorable to bimetalism.

Senator McMillan, of Michigan, introduced in the senate a bill to provide for a more extended use of gold by the United States. It amends the statutes by reducing from five to five dollars the minimum issue of gold certificates for gold and bullion deposits.

Mr. Daniel Webster, of Mass., opened Thursday's debate with a speech against the unconditional repeal of the purchase section of the Sherman act. Mr. Cooper, a Florida democrat, who announced himself as opposed to every proposition made by the silver men and for unconditional repeal.

Fighting for an Extension of the Time for Paying Duties on Imported Whisky.

WASHINGTON, Aug. 18.—Senator Frye, of Maine, Thursday introduced in the senate a protest against a bill introduced several days ago by Senator Voorhes, providing for extending six months the bonded period of whisky. Senator Frye stated that his protest is based upon the provisions of the National Temperance union and gave notice that he proposed to oppose the measure of Senator Voorhes.
